

## PRINT INFORMATION

Prints are available on your choice of Lustre or Metallic Paper.

Lustre – is neither glossy nor a matter surface, it has a slight texture and is printed on Kodak Professional Paper ensuring the best quality.

Metallic – provides a distinctive eye-catching metallic pearl like finish and is also printed on Kodak Professional Paper. Perfect for bright colourful images this paper really gives the extra pop!

Cropping – I have selected the best print sizes for each image to minimise cropping.

Other Sizes – If you would like an image in a size not currently listed please contact me and I will be happy to help.

Colour Variation – Please note that the colours seen on your computer monitor may vary from the print colours. Rest assured that my monitor is calibrated and all files are prepared to the Print Lab's specifications.
